

Bryan Liem

Full Stack Developer

+62 812 7769 1698 | bliem701@gmail.com | Jakarta Barat, Indonesia

Profil

Full Stack Developer with expertise in C#, ASP.NET Core, and Flutter, complemented by recent projects in Go and React. Proficient in SQL and Git to ensure efficient data management and streamlined version control. Capable of handling application deployment to production environments to enhance user experience.

Skills

- ASP.NET Core (C#)
- Flutter (Dart)
- Databases (SQL Server, PostgreSQL)
- Go (Golang)
- React (JavaScript)
- Version Control (Git/SVN)

Work Experience

Full Stack Developer

Feb 2025 – Present

PT Tera Multi Wahana

- Full Stack Development: Developed Flutter mobile apps integrated with robust ASP.NET Core RESTful APIs.
- Database & Debugging: Utilized SQL Server for complex querying, data verification, and troubleshooting via SSMS.
- Optimization: Refactored legacy code to enhance system scalability and improve user experience.

Full Stack Developer

Aug 2025 – Jan 2026

Freelance

- Built a custom marketplace for digital products (PPOB) using React for the dashboard and Go for high-performance backend services.
- Implemented Payment Gateway integration, enabling real-time transaction processing and automated order fulfillment.
- Managed the end-to-end deployment process to a Linux server (Ubuntu VPS), ensuring the system is production-ready.
- Handled relational data management for orders and users using PostgreSQL.

Education

- Bachelor of Computer Science, BINUS University

Aug 2022 – Feb 2026
